LATE 1980s Open Air Units

Economic and Clinical Concerns

Costly machines. Every room.

Unprotected. Hours before use.

Case dependent. Variable quality.

Expensive. Single-layer drapes.

A lot has changed since the 1980s

The AORN Seal of Recognition has been awarded to C-Change Surgical on March 7, 2023, and does not imply that AORN approves or endorses any product or service mentioned in these materials. The AORN Seal of Recognition program does not include any CE credit for programs.

RESEARCH Sterile Fluid Temperature Control

Slush: The only product with nearly universal concerns.

Feedback: Budget value. Case efficiency. Infection prevention.

APPLIED: User Input + FMEA = **SurgiSLUSH™**

1. Supply value
2. Streamlined process
3. Current standards of sterile security

RESULT: 18 consecutive evaluating teams just switched
